

# Power your Future

## WHAT IS AN ELECTRICIAN?

Electricians install, maintain, and repair electrical systems in homes, commercial buildings, and industrial plants.

From lighting to large-scale power systems and automation, electricians keep the world running safely, efficiently, and reliably

## WHY CHOOSE A ELECTRICAL APPRENTICESHIP?

- Essential, lifelong trade - Electricians are always in demand - across all industries.
- High-Tech & Hands-On - Work with smart systems, automation and more.
- Earn while you learn - Paid, full-time apprenticeship with expert mentors and practical training
- Nationally recognised qualification - Your skills will be in demand across the country - and beyond!
- Endless Opportunities - Progress to supervision, inspection, or project management.

## START YOUR JOURNEY TODAY!!

- Must be 16+ years old in the first 12 months of your apprenticeship
- P1 or higher driver's licence

## APPRENTICESHIP DURATION

4 years (full-time), with on-the-job training and formal learning through a registered training provider.

**EXPRESS YOUR INTEREST TODAY!**

*"I get to work with power, systems, and use my problem-solving skills every day. It's more than a job — it's a career with energy."*

— Maria L., Industrial Electrician
