

# Precision meets Performance

**EXPRESS YOUR  
INTEREST TODAY!**

## WHAT IS AN INSTRUMENTATION FITTER?

Instrumentation Fitters install, calibrate, and maintain instruments used to measure and control industrial systems such as pressure, temperature, and flow—essential in power plants, processing facilities in production and mining operations, and manufacturing.

## WHY CHOOSE AN INSTRUMENTATION APPRENTICESHIP?

- Industry-relevant skills - Learn high-tech, precision-based skills.
- Work in mining, energy & manufacturing - Be a part of critical process controls in heavy industries.
- Earn while you learn - Paid, full-time apprenticeship with expert mentors and practical training
- Nationally recognised qualification - Your skills will be in demand across the country - and beyond!
- Precision diagnostics & control systems - Work with cutting-edge sensors, systems and electronics.

## START YOUR JOURNEY TODAY!!

- Must be 16+ years old in the first 12 months of your apprenticeship
- P1 or higher driver's licence

## APPRENTICESHIP DURATION

4 years (full-time), with on-the-job training and formal learning through a registered training provider.

*"We keep industry flowing and functioning with accuracy."*  
— Alex T., Instrumentation Fitter
