

# BUILT TO WITHSTAND **Extremes**

## WHAT IS A REFRACTORY BRICKLAYER?

Refractory Bricklayers build and repair high-temperature linings in furnaces, kilns, and other equipment used in steelmaking, power generation, and other heavy industries. They work with specialised materials that can withstand extreme heat and chemical stress.

## WHY CHOOSE A REFRACTORY APPRENTICESHIP?

- Industry-relevant skills - Get hands-on experience in heat-intensive industrial environments.
- Work in essential industries - Be part of mining, steelmaking and energy operations.
- Earn while you learn - Paid, full-time apprenticeship with expert mentors and practical training
- Nationally recognised qualification - Your skills will be in demand across the country - and beyond!
- Career Growth - Opportunities to move into shutdown coordination and supervision.
- Specialised, in-demand trade - Learn skills that are vital for furnace and kiln reliability.

## START YOUR JOURNEY TODAY!!

- Must be 16+ years old in the first 12 months of your apprenticeship
- P1 or higher driver's licence

## APPRENTICESHIP DURATION

4 years (full-time), with on-the-job training and formal learning through a registered training provider.

**EXPRESS YOUR  
INTEREST TODAY!**

*"We build the barriers that protect the heart of industry."*

— Michael R., Refractory Bricklayer
